Software Engineer/Software Developer

Ambitious and versatile Software Developer with expertise in both frontend and backend technologies, specializing in React.js for web applications and Node.js for backend development. Adept in creating seamless user interfaces, integrating APIs, and building scalable, data-driven solutions. Eager to apply full-stack skills in impactful projects and tackle backend development challenges. Graduating with a B.Sc in Management Information Systems, with a deep understanding of information systems and their role in organizational decision-making. Ready to contribute to dynamic tech environments, with hands-on experience in teaching, mentoring, and collaborative software development.

SKILLS

Frontend Development HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Bootstrap, Tailwind CSS, SASS/SCSS, Git (Version Control System), GitHub

Backend Development Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, JavaScript, TypeScript

Mobile Development Dart, Flutter

Basic Programming Java, C#, C, Python

Soft Skills Agile Methodologies, Problem-Solving, Team Collaboration, Time Management

EXPERIENCE

APTECH Computer Education • Ota, Nigeria • 06/2024 — 06/2025

Information Technology Instructor & Web Developer

- Spearhead the development of custom curriculum and training sessions on web technologies such as HTML, CSS, JavaScript, and React.js, resulting in an average 20% improvement in student project completion rates
- Led classroom sessions with up to 30 students, focusing on modern frontend development frameworks, ensuring 95% of students achieved proficiency in developing responsive websites
- Collaborated with other educators to introduce interactive learning methodologies, leading to a 15% increase in student engagement during tech classes
- Mentored students on individual projects, particularly in building dynamic, user-friendly websites, and deploying them via GitHub and Vercel

APTECH Computer Education • Ota, Ogun State, Nigeria • 05/2023 — 02/2024

Information Technology Instructor (Intern)

- Delivered comprehensive lectures on software development and IT-related topics, incorporating hands-on projects that resulted in 95% of students successfully building and deploying web applications.
- Assisted students in developing personal websites and portfolios, increasing job placement rates among graduates by 18%.
- Fostered a collaborative classroom environment, encouraging peer-to-peer learning and discussion-based problem solving.

EDUCATION

B.Sc in Management Information Systems

African Institute of Science Administration and Commercial Studies (IAEC) • Lome, Togo • 10/2021 - 10/2024

- Gained in-depth understanding of how businesses leverage technology to streamline operations, support decision-making, and achieve strategic goals.

- Acquired foundational knowledge in database systems, information security, and enterprise resource planning (ERP) systems, with emphasis on aligning IT with business processes.

Advanced Diploma in Software Engineering

Aptech Computer Education - Ota, Ogun State, Nigeria • Ota, Nigeria • 09/2022 - 08/2024

- Acquired practical and theoretical knowledge in software development, covering core areas such as object-oriented programming, web development, and database management.
- Developed multiple real-world applications including a quiz web application and a bag e-commerce website, applying frontend and backend technologies like HTML/CSS, JavaScript, React.js, Node.js, Express.js, PostgreSQL, etc.
